Carequality Monthly Information Call

January 28, 2016

Agenda

- Carequality Intro
- Initial Rollout Update
- Steering Committee and Advisory Council Update
- HIMSS16
- 2016 Projects

Carequality Overview

What is Carequality?

Carequality creates a standardized, national-level interoperability framework to link all data sharing networks

Carequality is creating a web of interconnected networks

Data sharing networks have already connected many participants. The connections grow exponentially by connecting these networks.

If you connect six networks, you can reach thousands of physicians.

What is a Data Sharing Network?

Any organization that can bring significant sources of data to the table

- HIEs and other traditional networks
- EHR vendors
- Payers
- PHRs and other consumer-facing applications
- Lab networks
- Undoubtedly others

Initial Rollout Update

Reminder from November: Carequality Framework

- The Steering Committee adopted the Carequality Framework at its 11/5 meeting
 - Carequality Connected Agreement
 - Carequality Connection Terms
 - Dispute Resolution Process
 - Query-Based Document Exchange Implementation Guide
- The Framework is now available for production use in the Initial Rollout
- Documents are available for reference on the Carequality Wikispaces:
<http://carequality.wikispaces.com/Carequality+Framework>

Moving Forward

- Current Implementers are meeting weekly for operational planning
- A number of geographic areas are emerging as early adopter markets
- Production exchange via the Carequality Framework may “go live” as soon as late February
- Significant interest from other potential Implementers
- Conversations and legal review underway with a number of organizations

Steering Committee and Advisory Council

Advisory Council and Steering Committee

- Welcome to our new Steering Committee members!
 - Chris Danzi, Carolinas Healthcare
 - Hamid Tabatabaie, lifeIMAGE
- Welcome to our new Advisory Council members!
 - AJ Peterson, Netsmart
 - Mark Sum, Association of State and Territorial Health Officials

HIMSS16

Visit Us at Booth #454

- Booth operated by the Sequoia Project with the support of the Care Connectivity Consortium
