Carequality and COVID-19 Response

COVID-19 Response

- There are many efforts underway across the health IT space
- Carequality has already taken some steps, and is considering others
- The Steering Committee this week adopted a Carequality Policy on Full Participation During the COVID-19 Emergency
 - You can access the Policy here: <https://carequality.org/wp-content/uploads/2020/03/Carequality-Policy-on-Full-Participation-During-COVID-19-Emergency.pdf>
 - It permits providers to access data via Carequality as Query Initiators, even if they don't have the ability to be Query Responders
- We are also supporting the onboarding of PULSE-COVID-19, via the eHealth Exchange's implementation
- We are evaluating options for support of queries for Public Health
 - “Public Health” is a Permitted Purpose, but is not widely supported
