PROJECT UPDATES

FHIR-Based Exchange Update

Bill Mehegan

9/24/2020

FHIR Update

- Completed the first “official” iteration of the FHIR Implementation Guide in June
 - <https://docs.google.com/document/d/1iOur1orfMpYS30L2AU2wajZRXL7p6YWLk5F61TcZ1M/edit?usp=sharing>
- Over the course of the last 3 months, we’ve been incorporating feedback from the Implementer Community and other committees/groups
- We believe that the Technical section is complete
- Some finishing touches are needed on Policy sections around non-discrimination and fees and aim to have it 100% complete by EOM
- Current timeline goals:
 1. Next month (October), we’d like to have the Advisory Council recommend it for adoption by the Steering Committee
 2. Then have the Steering Committee formally adopt V1 of the IG for production use at its November meeting
- After these 2 events occur, it will be an official Carequality Element

Push Notifications

Chris Dickerson

09/24/2020

Push Notifications Workgroups

Policy Workgroup

- Close to completion of the policy section of the Push Notifications IG
- Discussion topics include:
 - Incorporating policy elements: CEQ FHIR and Query IGs
 - Notification Type/Trigger definitions with a focus on setting
 - Current work focuses on the Push as an independent Use Case

Technical Workgroup

- Continues its collaborative work
 - Incorporating CEQ FHIR IG security elements
 - Drafting – Full FHIR IG
 - Adding to message payload to account for CMS requirements
 - Updating approach based on Backport

Query-Based Document Exchange Enhancements

Chris Dickerson

9/24/2020

QBDE v2.0 Updates Review

- The group has been reassembled to consider feedback from the Implementer community
 - Group was expanded to include members of the Bi-weekly Implementer call
- The group has integrating conclusions from the Onboarding Taskforce

Image Exchange

Dave Cassel

09/24/2020

Image Exchange Updates

- Two of our early adopters, AmbraHealth and Philips, continue partner testing and validation of the Image Exchange IG Supplement
- After official “connectathon” events in August, testing between the two organizations has continued informally
- Issues that arise in testing are being evaluated as potential gaps in the Image Exchange IG Supplement
- The Image Exchange project remains open for additional participants

Production Operations Update

Live Implementers & Their Clients

QUESTIONS

THANK YOU!
