

The top half of the slide features a blue and green gradient background with abstract geometric patterns, including circles, lines, and the word "data" repeated in a light green font. The Carequality logo, consisting of the word "carequality" in white lowercase letters and a stylized white hash symbol (#) to its right, is prominently displayed in the upper left quadrant.

**carequality**

### The Carequality Process

# PROJECT UPDATES

# FHIR-Based Exchange

Bill Mehegan

10/29/2020

## Update | FHIR

- Completed the first draft of the Carequality FHIR Implementation Guide in June  
<https://docs.google.com/document/d/1iOour1orfMpYS30L2AU2wajZRXl7p6YWLk5F61TcZ1M/edit?usp=sharing>
- Feedback incorporated from the Implementer Community and other committees/groups over the past four months
- Completed edits to the IG and kicked off the official Carequality adoption process in September
- Earlier this month, the Advisory Council recommended it for adoption by the Steering Committee
- Next step: formal adoption of V1 of the IG for production use by the Steering Committee at the November meeting. After this occurs, it will be an official Carequality Element.

# Push Notifications

Chris Dickerson

10/29/2020

# Push Notifications Workgroups

## Policy Workgroup

- Completed the policy section of the Push Notifications IG
- Workgroup is on hold until the technical portion is complete

## Technical Workgroup

- Continues collaborative work
  - Incorporating CEQ FHIR IG security elements
  - Drafting – Full FHIR IG
  - Adding to message payload to account for CMS requirements
  - Updating approach based on Backport

# Query-Based Document Exchange Enhancements

Chris Dickerson

10/29/2020

## Update | QBDE v2.0

- The group has integrated conclusions from the Onboarding Taskforce
- Patient Request Queries breakout group
- Current topics:
  - Timeouts, and using failed queries for record location

# Image Exchange

Dave Cassel

10/29/2020

## Update | Image Exchange

- Two of our early adopters, AmbraHealth and Philips, continue partner testing and validation of the Image Exchange IG Supplement
- After official “connectathon” events in August, testing between the two organizations has continued informally
- Issues that arise in testing are being evaluated as potential gaps in the Image Exchange IG Supplement
- The Image Exchange project remains open for additional participants
