April in Review

Alan Swenson

Highlights

o   Executive Director transition

Project Updates

Carequality Team

04/29/2021

Certificate Authority

Bill Mehegan

4/29/2021

Update

o   22 Certificates issued this month from the new Certificate Authority (CA)

o   Continuing to work through some minor Implementer truststore issues and hope to have them resolved by April 30th

o   We expect to really ramp up new CA certificate issuance in May

o   Our goal of totally sunsetting Entrust (our current CA) by Nov 1st remains unchanged

Please contact Carequality (admin@carequality.org) with any questions/concerns about the new process or the new Certificate Authority

FHIR Based Exchange

Bill Mehegan

4/29/2021

FHIR Based Exchange Pilot

o   The FHIR Use Case IG was published in December 2020

o   We are still seeking volunteers to participate in the piloting of this ecosystem

o   If you are interested, please reach out to us admin@carequality.org

REMINDER

For any current Document Exchange Implementer, there are **no additional fees** for FHIR until January 1, 2025

Push Notifications

Chris Dickerson

Next Steps

o In order to ensure smooth onboarding at launch, we plan to conduct a proof of concept test of the new Implementation Guide

  – Proof of Concept Testing: **Q2 2021**

    • Organizations interested in joining our tests are invited to contact us at Admin@carequality.org

• We plan to integrate any findings into the guide ahead of final approval

Still seeking additional EHR or hospital partners

QBDE v2.0 Updates

o   The workgroup has completed all updates planned for v2.0

o   Next steps:

–   Send for adoption consideration by the AC

–   If no feedback from the AC, request adoption from the SC

–   Implementer objection period

•   Comments are still welcome

–   Please submit comments to: Cdickerson@carequality.org

•   Adoption by: **August 2021**

Policy Working Group

Non-Treatment Exchange

o   Since go-live, the Carequality ecosystem has been expanding. There are now a variety of organizations with use cases that were never envisioned.

o   The group has concluded their work considering the Treatment Permitted Purpose

   – New Topic: How might we increase the utilization of other purposes

      • Ex. Patient Request, Payment, and Health Care Operations

o   Once the Working Group has weighed in on these issues, their conclusions will be submitted to the Steering Committee and Advisory Council

If you are interested in joining the group (space is limited),

please send your request to Admin@carequality.org
