Project Updates

Carequality Team

03/31/2022

FHIR Workgroup

Bill Mehegan

03/31/2022

carequality

FHIR Workgroup

o   As the Carequality FHIR Use Case matures, we are reviewing our certificate policies while attempting to get a better understanding of our Implementer's needs and requirements as it relates to certificates

o   The community has expressed some concerns that the number of certificates needed to support a FHIR ecosystem will dwarf what we grew accustomed to in QBDE

o   To that end, we have created a survey, and we're asking all prospective FHIR Implementers to complete the survey found here https://www.surveymonkey.com/r/B6NW76G

o   We are looking for only 1 response per Implementer/Org. If you fall into this category, please circle back with your technical teams and look over the survey as a group. Please submit your **1 response** NO LATER THAN 4/12/2022

Image Exchange

Image Exchange

o In April, Philips/Hyland will have another Connectathon type event to test the updated code for a SAML issue discovered in January

o Nuance has re-engaged and could have their Gateway constructed in time to participate in next month's testing

o Production use could occur anytime after this update has been confirmed

carequality

FHIR R4 Directory

o We are in the final stages of our Directory/IG review process with Lantana

o We plan on wrapping up this review cycle and officially publish the new Directory IG sometime in April

o At that time, we'll allow Implementers access to a Development version of the new FHIR server and ask that they simulate real Directory interactions as a next step

o Assuming that goes well, we can then offer Implementers access to the new R4 Directory server in Production

Framework Policies Document Published!

- The Carequality Framework Policies document is a new policy document that will contain all of the overarching policies governing the framework
  - Most of the duplicative policy language will be removed from the individual Use Case IGs in their next update cycle (and any other relevant Element)
- The document is now published in its final form on our recourses page:
  - https://carequality.org/resources/
- Thank you to everyone that has contributed to our workgroups and in the feedback phases!

carequality

Payment and Health Care Operations

- New Payment and Health Care Operations Workgroup
  - 15+ stakeholder organizations represented
  - Weekly meetings on Thursdays at 3pm ET
- A few of our current topics include:
  - Use Cases
    - Care Coordination
      - Reciprocity as a component of Full Participation
    - Risk Adjustment
- If you are interested in joining the conversation, please contact:
  - Admin@Carequality.org

Document Content v2.0

- The work of the Carequality and CommonWell Joint Document Content Workgroup, now in v2.0, called "*Concise Consolidated CDA: Deploying Encounter Summary and Patient Summary Documents with Clinical Notes*" has been published!

- Includes guidance on new topics:
  - Further refinements to the content recommendations featured in version 1.1
  - Guidance for laboratory orders and results
  - The dynamic generation of documents (aka "On Demand")

- Published in its final form on our recourses page:
  - https://carequality.org/resources/
    - Please note that while this document reflects best practices, it is not binding to the Carequality Implementer community at this time

Patient Matching Workgroup

Chris Dickerson

03/31/2022

carequality

Patient Request

- Larger group meetings have resumed to discuss the policy proposal developed over the past month
- The new policy proposal is designed to address some of the concerns voiced by responders
  - Requiring the use of a designated third party to verify Requester (patient) identities
- If you are interested in joining the workgroup or in planning a 1-on-1 discussion about our work on the topic with our staff and your counsel, please contact:
  - Admin@Carequality.org

Push Notifications
